Members of Ross Town Council
Re: Pickleball Restrictions

Members of Ross Town Council,

I understand that you will be discussing regulating, restricting or banning Pickleball at your next meeting. Pickleball is wildly popular with many our citizens, and the number is growing rapidly.

Other towns and cities have successfully managed Pickleball noise without resorting to a total ban. There are plans that limit hours of play and ask for noise studies only for new courts when there are specific noise complaints. I encourage you to find a way to regulate and manage this without a total ban on Pickleball in Ross.

I also thank all of you for the time you take to keep our town up and running, safe and beautiful. It is a most appreciated.

Respectfully,

Margie Ellis
